**JEALOUS YOUTH
DENIED SHOOT**

Bullet Enters Head of Mary Tedlak,
Who Will Probably Survive—Another
Shot Misses Successful Sailor.

Another brutal attempt to murder was made Saturday night when Herman Homack shot and seriously wounded Mary Tedlak after a refusal on the girl's part to give him a picture of herself. The young woman is now in St. Vincent's hospital. She will probably recover. Homack was captured at the scene of the assault by Patrolman Goulden.

Homack was very much in love with the Tedlak girl but it was an affection that was not returned. He often came to the house of John Smith at 189 Nichols street, where the girl boarded, ostensibly to call on Smith, but in reality to have a chance to exchange a few words with the girl, who continually repulsed him. Homack saw a photograph of Mary on the mantel in the Smith home and asked her if he might have it, but was refused. This so angered him that he drew a revolver and shot the girl in the back of the head as she was trying to run from him. Charles Jablonski, who had been calling on Miss Tedlak, on hearing the shot rushed from the house into the yard where Homack had made his attack. He was shot at by the would-be murderer, but the bullet went wide of its mark. Homack was found by Patrolman Goulden in the act of reloading his revolver, evidently for the purpose of taking his own life. He was brought to the Second Precinct station.

The young woman is resting comfortably today at St. Vincent's hospital. The physicians in attendance probed for the bullet yesterday but were unsuccessful, and will try again today. Homack lived at 661 Broad street. He was out of the house and had been employed by the Deoxidized Bronze and Metal Co. He is 20 years old.

Delay in taking Foley's Kidney Remedy if you have backache, kidney or bladder trouble, fastens the disease upon you and makes a cure more difficult. Commence taking Foley's Kidney Remedy to-day and you will soon be well. Why risk a serious malady? F. B. Brill, local agent. *135

**WHY GOVERNOR WEEKS
SHOULD VETO AUTO BILL**

During the past few days several prominent motorists of the State are said to have appeared before Governor Weeks to urge him to veto the automobile bill which has been passed by the House and Senate and now awaits his signature.

The State Association has just sent out a circular letter to the eight clubs which compose it, declaring in no uncertain terms, the opposition of the legislative committee to various parts of the bill and urging the members of the clubs to protest against it. The circular points out the following as the most important reasons for protest against the bill:

First. The proposed law is full of errors, chaotic and difficult for even a lawyer to understand.

Second. The civil authorities are just beginning to understand and enforce the law of 1907, and to foist this garbled, mixed up, and incomprehensible bill upon the State will do much more harm than good.

Third. The scheme of taxation proposed is absolutely unjust and one that automobilists will not stand. If the courts will not relieve them, they will take the matter to the polls next year and see that no man who had a hand in that injustice gets a chance to repeat it.

Fourth. Various penalties are omitted from the proposed law, so there are prohibitions with no means of enforcing them.

Fifth. There is no provision for reporting many of the convictions to the Secretary of State. This is a very vital error, as reports of convictions are the basis of suspension of the licenses of reckless drivers by the Secretary.

PRESIDENT'S ADDRESS

Taft Commends Churches
for Making Religion More
Attractive to the People.

Washington, July 12.—In an address delivered at the laying of the cornerstone of the Ingram Memorial church (Congregational), yesterday President Taft commended the present tendency toward making religion and churches more attractive to the people. The Ingram Memorial church owes its birth to a contribution of \$40,000 made by O. H. Ingram of Eau Claire, Wis., in memory of his son who died several years ago. It is to be conducted along unusual lines. In addition to services the church will provide amusement for its communicants and will attach to it a gymnasium, a swimming pool and other features attractive to young men.

The President placed the cornerstone of the new church in position. In his address Mr. Taft said that the Congregational church came from New England by descent.

PARASITES IMPORTED

Brought Here to Exterminate
Gypsy Moth in New
England.

New York, July 12.—An interesting consignment of about 2,000 parasitic-bearing caterpillars arrived yesterday on the American line steamship New York. They are consigned to Dr. L. O. Howard, Chief Entomologist of the Department of Agriculture, to be sent back from abroad a few days ago on the Cunarder Mauretania.

While abroad Dr. Howard gave some time to studying the extermination of the gypsy, or brownish moth, which has caused serious ravages here and especially in the New England States. It was found that there are two varieties of moth-killing parasites in England, Germany and Austria, but how to get the parasite to this country was another question. It was decided that the only way to import them was to bring in the parasite-infested caterpillars, and so the importation of them has begun. Since May they have been arriving at the rate of about 2,000 a day.

There were ten cases on the New York. They were kept in a storage compartment forward. In some way a case broke when the consignment was being taken on board at Southampton and the caterpillars, it is said, set out to explore the vessel soon after she got under way. They managed to get to nearly every part of the vessel, and it was noticed that they always traveled down wind. The remaining cases were carried to a storage compartment in the stern of the New York, so that if any more caterpillars escaped they would work down wind and over the stern.

DENIED ADMISSION

(Special from United States.)
Buffalo, June 12.—Denied admission to United States soil by Inspector Sparkling, an immigration officer lately transferred here from New York, because the man was an injured alien, Frank Scopic, 25, of Crystal Beach, Canada, was operated on for a fractured skull aboard the big passenger steamer Americana early today. A room was offered the surgeons on the boat which they could turn into an operating room. Drs. Clinton, Walsh, Thompson and Herlihy of the Sisters' Hospital performed the operation. Orders were telephoned to the hospital for all the things needed.

It is said Scopic received his injuries in a fight at Sherston, Ont. The fracture of the man's skull was a very severe one and after the operation the doctors would not hold any hope for his recovery.

LADIES OF CHARITY.

The Ladies of Charity will hold a special meeting at St. Vincent's hospital on Wednesday, July 14, at 3 o'clock p. m., to distribute tickets for the outing on Monday, July 19, to Fort Jefferson.

PERSONAL MENTION.

Mrs. Howard G. Hubbell has returned from a visit with her cousin, Miss Gould, at Eastern Point, New London Harbor.

A. D. Rose for the past five years state manager of the insurance department of the Woodmen of the World with offices in this city left this morning for Philadelphia with his wife and family. He has already assumed charge of the business of the order in Pennsylvania and has the most important jurisdiction in the organization outside of Texas. He will make his home in the Quaker City in the future.

**MODISH SLIMNESS
CAUSES DIVORCE**

SACRIFICED 31 POUNDS TO WEAR
REALLY FASHIONABLE GOWN
AND LOST HUSBAND

Forbidden Her to Fade Away

She Defied Him, and Faded—All But
133 Pounds, Though Height Was 5
Feet 10 Inches.

Berlin, July 12.—The present unholy fashions in women's attire denounced by the Vatican organ, the Osservatore Romano, are responsible for a remarkable divorce just granted by the courts of Silesia. On the representation of the husband that his wife had become intolerably thin in order to accommodate her figure to modish dress, a decree of divorce has been awarded by a Silesian Judge, and the respondent has been declared guilty in the eyes of the law.

The petitioner declared that when he married his wife was naturally of a good figure, but this year she suddenly decided that she must be thinner to keep pace with the fashions. She began, therefore, a strenuous cure which reduced her by thirty-one pounds in three months. She rode horseback three hours each morning, played tennis two hours, took several daily walks lasting an hour each, and ate like a bird. Her habitual rosy complexion gradually changed to a chronic paleness under this regimen. She dwindled away until her weight, though she was 5 feet 10 inches in height, was only nine and a half stone, (133 pounds).

She attained her ambition, however, and could wear a really fashionable gown. When the Judge forbade his wife to continue fading away, she defied him.

In the divorce proceedings the Judge contended that his wife had deceived her husband because he had bargained to marry a lady of natural amiable proportions. Had she been fit it would have been his duty to watch her grow thin uncomplainingly, but as she sacrificed herself merely in response to the dictates of a mad fashion he claimed the right to be rid of her. After a fiery attack on the current barbaric styles by the Judge's counsel, the divorce was granted.

If people with symptoms of kidney or bladder trouble could realize the danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. F. B. Brill, local agent.

**Noted Astronomer,
Prof. Newcomb, Dead**

Washington, July 12.—Prof. Simon Newcomb, one of the foremost astronomers of the world, died here yesterday. His death was due to cancer, the first symptoms of which appeared last September. For some time his life had been despaired of by his physicians. His family was gathered at his bedside when the end came.

Interment will be in Arlington Cemetery, and under the direction of Commander Sells, U. S. N., will be conducted with full military honors.

It was not generally known that Prof. Newcomb, in addition to being an astronomer of first rank, a noted mathematician, and a globe trotter, was also a Rear Admiral in the United States Navy. By reason of his long and valuable services in the Naval Observatory this rank was conferred upon him on his retirement in March, 1897.

THE STOCK MARKET

(Watson, Alpers & Co.)
The charges are largely in favor of the early lifting of the tariff incubus from business and are still more so as regards a successful agricultural outcome. There is no indication that the exports of gold may not at any time be checked by freer wheat or cotton shipments, due to recessions of prices to an attractive export basis. The plethora of bank reserves at all the leading centers of the country forbids the idea of anything worthy to be called monetary stringency in August. All the fundamentals, in our judgment, remain favorable to a legitimate rise in values, and temporary interruptions to the upward tendency should be availed of, in the absence of accident, to make conservative purchases.

The D. M. Read Co.

Established 1857.

Batiste Robes, a Clearance.

A few choice gowns left which will be sold to first comers at generous reductions.

White Robes, embroidered and with lace, were \$10.00, now \$8.00.

These are 54-inch embroideries and 4½ yards is the length.

**WISSNER
Grand and Upright
PIANOS**

All those prospective buyers who are looking for the highest quality obtainable in a piano—distinctive quality—quality that has aroused the enthusiasm of the greatest musicians of our times—will do well to pay a visit to the Wissner Warerooms.

A single chord struck on a Wissner Piano might be more convincing than volumes of literature or hours of oral persuasiveness.

The Wissner Pianos are the only absolutely high grade pianos that are sold on very reasonable terms of payment.

Those who are looking for pianos moderate in price, who want good and reliable instruments at comparatively little cost, will find at our warerooms the greatest values ever offered.

**PLAYER
PIANOS**

are no longer an experiment. Their universal popularity is conceded. They give unbounded pleasure to parent and child, old and young. Why not install this wonderful entertainer in your home? You would find it a never-failing source of pleasure, education and refinement. A small amount down will secure one.

THE PLACE**

FOR YOUR SUMMER VACATION

Look Cape Cod up on the map. See how this "good right arm
of Massachusetts" thrusts itself out into the Atlantic Ocean—how
exposed it is on all sides to salt water breezes.

No wonder, then, that it is always cool in summer-time down
on the Cape. So cool that you'll find a blanket mighty comfortable
when you retire at night. And how you'll sleep!

"Quaint Cape Cod" and "Buzzards Bay" are two beautifully il-
lustrated books we've just issued. Read these books before you
decide where to go this summer. Free for the asking.
